A motivated, responsible HND graduate looking for a rewarding role in one of the following positions; Virtual Reality (VR) & Augmented Reality (AR) designer / developer, programming, graphics design. I have a strong drive to see tasks through until the end, while maintaining high standards. I've recently completed an HND diploma in Computing & Systems Development at Heart of Worcester College. I also have experience in the following programming languages; HTML, CSS, JavaScript, Bootstrap and C#. Along with working on developing AR, VR applications using Unity software.

EXPERIENCE

2019 – PRESENT

AUGMENT REALITY DEVELOPER, FREELANCE/ GAMEDR

Recently worked alongside of GameDr Ltd on creating an Augmented Reality application prototype. This involved in the designing, developing models using Unity and Vuforia, which then were tested and deployed onto Android device and the google play store.

2018 – JULY 2019

VIRTUAL REALITY PROJECT, HOW COLLEGE / L.E.P

Participated in the designing and developing a Virtual Reality Application for the Local Enterprise Partnership (L.E.P). Involved myself working within a team of colleagues, developing and testing VR app which was then deployed onto the Samsung Gear VR. Along with attending business meeting and presenting our findings to a panel at the L.E.P. All this was part of a double weighted module which last a whole college year resulting in a Distinction level grade.

2017 – 2018

WORK EXPERIENCE, HOW COLLEGE

Participated in work experience along side of one my college tutors at HOW College
This involved in assisting Peter in the class room during practical session assisting student with any trouble shooting. Also installed Computer Operating systems along with other software's onto the college systems when requested. Removing and replacing and completing inspections regarding functions of the equipment and troubleshooting when needed.

2010 – PRESENT

CARE/SUPPORT WORKER, RNL CARE, NATIONWIDE CARE & PRIVATE ARRANGEMENT

Support clients with personal care, Food preparation and other household duties depending on what was in their care plan. Dispense medication when needed. Assisting the young person with daily tasks, along with the responsibility of safeguarding their wellbeing.

2005 – 2009

VECHICLE TECHNICIAN, FORD MOTORS / BRISTLE STREET MOTORS

Here I completed an apprentice while working for Brooklyn Ford in Redditch, during which I gaining an 'Apprentice of the year' award within KDTC training company. Once my training was complete, I took on a full-time position prior to being made redundant due to company going into liquidation.

EDUCATION

SEPTEMBER 2017 - JUNE 2019

HND DIPLOMA IN COMPUTING AND SYSTEMS DEVELOPMENT, HOW COLLEGE (WORCESTER)

Recently graduated with double Distinction in Level 5 and D-Distinction in level 4.

- **IT Project** (incorporating Module 32 Quality Systems in IT)
 - Module 4 - for this myself and 2 other students are currently in the progress of developing a virtual reality application for a professional client.
